EVENT DESCRIPTION

Date	14.4.2023
Author	Osman Lindov
Institution	University of Sarajevo
Event title	Project DGTRANS promotion at University of Sarajevo - Faculty of Traffic and Communications – Bosnia and Herzegovina, master, and doctoral students Galway University Ireland
Event description:	
On 14.04.2023. in the Faculty of Traffic and Communications was visited by students of the master's and doctoral studies of Environment, Society and Development at the University of Galway, Ireland, https://www.universityofgalway.ie/, who are working on a research project from Urban Sustainable Mobility for the issue of public participation in cycling policies in Sarajevo. The project manager is: Philip Keegan, Masters Environment, Society & Development, School of Geography and Archaeology University of Galway, Ireland, https://www.linkedin.com/in/philip-keegan-34915796/. Collaborators on the project are: Shaatuna Kalla, Masters Environment, Society & Development, School of Geography and Archaeology University of Galway, Ireland, linkedin.com/in/shaatuna-kalla-630736b9 Nessa Egan, Project Support Lead at Carey Group Plc, Waterford Institute of Technology London, England, United Kingdom, linkedin.com/in/nessa-egan-179530129 Rutger van Dijk, Master student 'Environment, Society & Development,' at University of Galway https://www.linkedin.com/in/rutger-van-dijk-a8762b155/ The research led them to the Faculty and subjects studied at the FSK UNSA, under Prof. Lindov (Transport and Environment, Road Safety and Sustainable Development and Environmental Engineering). In contact and at the invitation of Prof. Lindova, the research team visited the Faculty and participated in the teaching process in the form of a project presentation, where prof. Lindov and students took an active part in the project. Prof. Lindov https://www.linkedin.com/in/osman-lindov-7840a520/ introduced them to the areas of study and research at the Faculty, as well as introduced them to two Erasmus + projects in which the Faculty participates with 16 partners from the EU and WB: 1. PELMOB_ Partnership for Promotion and Popularization of Electrical Mobility through Transformation and Modernization of WB HEIs Study Programs; https://pelmob.pr.ac.rs/; https://fsk.unsa.ba/erasmus/. 2. DGTRANS Transport of Dangerous Goods - Modernization of Curricula and Development of Trainings for Professionals in the Western Balkans HEIs). https://dgtrans.pr.ac.rs/; https://fsk.unsa.ba/erasmus/. The lecture, presentation and discussion covered the following topics: "cycling infrastructure", "safety", "future possibilities of bike infrastructure" and "engagement of education and citizens". They talked and discussed about bicycle paths, the importance of using a bicycle, then the problems we face when using a bicycle as a means of transportation and much more. The research focus was on the issue of public participation in cycling policies in Sarajevo. During the presentation itself, the students had the opportunity to access the research where the questions were specifically related to the city of Sarajevo and the bicycle infrastructure, and the research related to drawing on the map of the city of Sarajevo places where there is an adequate	

bicycle path, and then also places where there is none at all or it was inadequately built, and the students and researchers themselves were able to locate localities in the area of the city of Sarajevo that should be freed from motor traffic, that is, should be promenades and park areas with bike paths. The atmosphere at the lectures was always useful, cheerful, smiling for us Bosnians and Irish, and there were also French people studying in Ireland. We agreed to meet again, if not "live" then online. Lectures and research (video and photo) at the Faculty can be viewed at this link: <https://www.youtube.com/watch?v=YWSlcaqtI1c&t>

Presentation of the results of the Urban Sustainable Mobility Project for the issue of public participation in cycling policies in Sarajevo at Galway University in Ireland in front of an audience and interested parties (Stakeholders) can be viewed here <https://www.youtube.com/watch?v=ccKPKZqKNU&t>
