EVENT DESCRIPTION

Date	12.5.2023.
Author	Ajdin Džananović, Osman Lindov, Adnan Omerhodžić
Institution	<i>University of Sarajevo-Faculty of Traffic and Communications</i>
Event title	<i>International Conference "Advances in Traffic and Communication Technologies (ATCT)" - "Sustainable urban mobility"</i>
Event description:	
During the International Conference "Advances in Traffic and Communication Technologies (ATCT)" - "Sustainable urban mobility," which took place on May 11th and 12th, the Faculty of Traffic and Communications at the University of Sarajevo organized an exceptional promotion of the DGTRANS project, focusing on the transportation of hazardous materials. Throughout the conference, the DGTRANS project team actively promoted their initiative, emphasizing the fundamental principles of personalization, electrification, and connectivity. Attendees had the opportunity to explore the project's visionary concepts and witness its potential to revolutionize urban mobility. The interactive presentation engaged the audience, sparking meaningful discussions and fostering collaborations in the pursuit of sustainable solutions for transportation of hazardous materials. The Faculty of Traffic and Communications at the University of Sarajevo, through the promotion of the DGTRANS project, demonstrated their dedication to shaping a safer and more sustainable future. By embracing innovative solutions, fostering collaborations, and adhering to international regulations, DGTRANS strives to ensure the safe transportation of hazardous materials and protect public safety and the environment. Through the successful promotion at the conference, DGTRANS gained valuable visibility, expanded its network of stakeholders, and solidified its position as a leading initiative in the field of transportation of hazardous materials.
