EVENT DESCRIPTION

Date	07.06.2024.
Author	Ajdin Džananović, Osman Lindov
Institution	University of Sarajevo - Faculty of Traffic and Communications
Event title	International Conference "Advances in Traffic and Communication Technologies (ATCT)" - "AI Crossroads: Shaping the Future of Traffic and Communications"
Event description:	
<p><i>At the International Conference "Advances in Traffic and Communication Technologies (ATCT)" - "AI Crossroads: Shaping the Future of Traffic and Communications," held on June 6th and 7th, the Faculty of Traffic and Communications at the University of Sarajevo once again showcased their commitment to pioneering advancements in urban mobility with the promotion of the DGTRANS project.</i></p> <p><i>This year's conference brought together industry professionals, experts, and academics from across the region, all united by a shared vision of leveraging artificial intelligence to transform traffic and communication systems. DGTRANS, the faculty's flagship project, continued to captivate the audience with its innovative approach to urban transportation.</i></p> <p><i>Throughout the conference, the project team diligently promoted DGTRANS, emphasizing its core principles of personalization, and connectivity. Attendees were invited to explore the project's cutting-edge concepts and discover how it is set to revolutionize urban mobility through the integration of AI technologies. The engaging presentations and interactive sessions sparked lively discussions, fostering new collaborations and driving forward the mission of creating sustainable, intelligent urban transportation solutions.</i></p>
