Institution	University of Mitrovica, Faculty of technical sciences (FTN)
Event title	Faculty of Technical Sciences at the 8th Education Fair “Come, Inform Yourself” in Laplje Selo
Event description:	
On April 9th, the Faculty of Technical Sciences, University of Priština in Kosovska Mitrovica, participated in the 8th Education Fair titled “<i>Come, Inform Yourself</i>”, held in Laplje Selo. This event brought together faculties from the University of Priština with the shared goal of presenting academic opportunities to high school students from across the region. Representatives of the Faculty of Technical Sciences actively engaged with students, offering information on accredited undergraduate and graduate study programmes, conditions for studying, available infrastructure, and career development prospects. The fair served as an excellent platform to connect directly with prospective students, answer their questions, and highlight the advantages of pursuing technical education. In addition to promoting the faculty’s academic offer, special attention was given to the ongoing Erasmus+ project, DGTRANS. Students were introduced to the international dimension of studying at Faculty of technical sciences, including mobility opportunities, international collaboration, and the benefits of participating in projects funded by the European Union. The participation at the fair reaffirmed the faculty’s commitment to outreach, promotion of academic excellence, and active involvement in initiatives that enhance regional and international cooperation in higher education.
